Preface

The syllabus covers Bhoti Language grammar, composition and ethics. The aim and objective of this syllabus is to make students proficient in listening, speaking, reading and writing in Bhoti Language.

Since all the works of Sowa Rigpa scholars are in Bhoti Language as a form of Literature, so without standard knowledge and skill of Bhoti language and literary theory, Sowa Rigpa students will not be able to understand classical Sowa-Rigpa texts. The syllabus will benefit students to be proficient not only in listening and speaking skills but also reading and writing skills in Bhoti Language. Therefore, it will be of major contribution to the curriculum of Sowa Rigpa Studies.

Besides language and literary theory, the third part of syllabus teaches students about ‘Training the Mind’ which will reflect upon understanding the pain and misery of all sentient beings particularly the sick people, and helps students to develop loving-kindness and care towards all beings, specifically towards patients which is necessary in the field of medical practice.

The newly introduced teaching method will make big difference because lecture and non-lecture blended method will make students focuses on daily reading, writing, speaking, listening and understanding in Bhoti Language. Students will be able to recognise and use cases, grammatical functions, verbal forms and tenses, application of literary theory of Tibetan language etc.

The syllabus covers Bhoti Language grammar, composition which will make students proficient in the very medium language of the Sowa Rigpa and the syllabus of ethics will be beneficial to make our Sowa Rigpa students to be good, kind and proactive.
